# PEPSICO

## THE CLIENT

PEPSICO, a global industry giant, has set its sights on becoming the preeminent leader in the Beverages and Convenient Foods sector. Guided by a vision that reflects the organization's competitive spirit, laser-focused approach, and shared values, the company is resolutely pursuing this ambitious goals.

*Delivering smart  
transport solutions  
It's what drives us*

## THE ASK

PEPSICO's main transport division needed a **central platform for real-time display of logistical plans** for all transporters, enabling seamless sharing of load allocation and updates between transporters, clients, and PEPSICO. The data relates to **load status, current position, and notifications/exceptions**. The goal is to **facilitate data sharing** without burdening transporters with additional data upload tasks, offering them various options for data sharing.

## THE SOLUTION

FLOW Platform was recommended to provide an **integrated database across platforms for central management** and reporting.

The platform offers a **Business Intelligence dashboard** that can report on the various aggregated data resources.

**KPI dashboards were created** for internal use and other KPI dashboard were exposed via portal to clients and sub-contractors.

FLOW Platform was able to **integrate with existing document management software** and provided the ability for digital, remote document uploading, sharing, and saving.

## THE RESULTS

- PEPSICO salary cost savings of around **R1 million per annum**
- Customer service **on-time** delivery rating **increased** from **70% to 90%** year-on-year.
- **5% decrease** in **Standing Time** related **costs** for PEPSICO

## AT A GLANCE

- 25 – 35 PEPSICO Expeditors & Planning staff
- 55 different transporters
- 1500 Vehicles
- 4000 – 5000 consignments per month
- 1500 different SKUs
- 500 PEPSICO customers

## THE TEAM

The **award-winning** solution that is revolutionising the supply chain.
